- \$389 for non-member

Fee includes lunch, handout materials and presentation.

**Deadline to Register
is March 4.**

After that date please include a \$15 late fee.

PPS has made ICD-9-CM coding a key element to determine accurate reimbursement and drive quality outcome improvement. With the advent of the revised OASIS-C, experts agree that ongoing and specialized home health training to accurately assign diagnosis codes remains critical to reflect the complexity of home care patients and ensure accurate reimbursement. This code conference will provide the fundamentals necessary to achieve national credential status. Ensure your agency coders are recognized for their expertise and experience. Upon complete of this one-day, fast-paced, interactive code program, participants will be eligible to take the Homecare Coding Specialist Diagnosis (HCS-D) national certification exam.

This program includes a comprehensive overview of ICD-9-CM coding with specific application to the home health industry and the revised OASIS-C. Coding mandates, exceptions and best practices will be reviewed in the home health context. Coding inconsistencies and common diagnosis pitfalls as well as tips to reinforce OASIS documentation to substantiate accurate ICD-9-CM coding will be addressed.

Topics to be covered:

- ICD-9-CM Code Conventions and guidelines, including the ten steps to correct coding and a summary of the 2010 code changes;
- Critical diagnosis-related billing and coding guidelines including the correct assignment of primary, secondary and case mix diagnosis items;
- Diagnostic coding statements and code sequencing for common and complex home care cases, including wounds, neoplasms, manifestation and combination codes.

Participants must have an updated 2010 ICD-9-CM Code Manual for this program.

Who Should Attend This Training?

Clinicians as well as non-clinicians involved in the completion of the OASIS assessment, as well as the review and code assignment for home health providers. Participants must have an up-to-date ICD-9-CM code manual as well as a blank Start of Care OASIS document.

**HCS-D Exam
March 12**

Home Care Coding Specialist Exam (HCS-D) will be offered on March 12, at this same location from 9 – 11:30am. **Separate registration is required.** The exam is based on the 2010 ICD-9-CM Manual. It is *RECOMMENDED* that the participant planning to take the code certification test has at least one year of current home health experience and two years of coding in the home health setting.

We will offer exam participants a 2-hour study session on the evening of March 11th. This review session is a must for test-takers!
