

Mastering OASIS-C

OASIS-C is now a reality, and this complex assessment must be mastered! Has your staff been adequately trained on the numerous revisions and new process measures?

This 1.5 day comprehensive workshop will guide attendees through the assessment process, item by item, to ensure OASIS data accuracy. Learn about the new and revised items, the measures that examine agency processes, and changes in the approach to assessing ADLs. Master your OASIS skills and receive valuable information and helpful tools that will assist in implementing the "best practices," improving patient outcomes, and increasing revenue!

Demystifying Home Care Coding

In these challenging times, a proficient coder is invaluable! Get the details that will help keep coding errors down, reimbursement up, and reduce the risk of an audit.

Attend this 1.5 day workshop where you will receive in-depth training in solving the mysteries of home care coding. Whether you are a new or experienced coder, this comprehensive course will advance you to the next level of your coding career and enable you to steer through the PPS maze with more ease and accuracy!

Bring a current coding manual!

**Boost your
Coding & OASIS
accuracy!**

Attend these home care workshops designed to enhance your coding and OASIS skills. Get the latest information on OASIS-C and CMS guidance.

PLUS ...earn your HCS-D credential and prove your coding competency!

Mastering OASIS-C AND Demystifying Home Care Coding

"Simplify the Complex!"

Unravel the Mystery!

Missing just one clue could negatively impact your agency's bottom line and quality outcomes!

Are you still struggling with the complex 2008 PPS reforms and wondering if your agency is on the right track?

Now, OASIS-C is here and there are even more complexities! The first major OASIS overhaul in over a decade became effective January 1st. With OASIS-C came a new set of challenges. The many revisions require extensive training, and the new "best practices" impact agency processes. Learn the rules for collecting OASIS data and the strategies that will enhance performance, assure quality, and maximize reimbursement for your agency.

Coding and OASIS go hand-in-hand, and their accuracy is critical to your agency's success! Find out the vital facts about OASIS-C and how to code the right way, starting with the basics and moving beyond.

Take advantage of this great opportunity to attend back-to-back comprehensive OASIS-C and home care coding workshops that will improve your skills, ensure compliance, and reduce costly errors!

Who Should Attend?

Administrators, Directors, Managers, Educators, QI staff, Coders, Billers, Nurses and Therapists who collect OASIS data
