

Beginning Home Care Coding
Holiday Inn Express, Dallas (September 7, 2010)

Beginning HOME CARE CODING

Be Sure to Bring a Current Coding Book

\$179 Book Preorder # of copies _____

This one-day course instructs attendees in the proper use of the coding manual, gives a knowledge of basic coding conventions and guidelines, and introduces the crucial concepts of sequencing, manifestations and case-mix diagnoses. Getting the basics right is the first step in coding accuracy. This course emphasizes the official coding guidelines, Chapter 3 of the OASIS Implementation Manual, Appendix D and other official guidance. The program will provide the “background” of why we have to do what we do. Common coding errors will be identified and rectified—overuse of V codes; sequencing issues; missing 5th digits are just a few. Updated to include any CMS changes regarding ICD-9-CM coding, this full-day workshop is designed for beginner coders who have a basic understanding of home health and OASIS. We will learn how to use the coding manual and learn to apply the conventions and the basics of sequencing. Common home care diagnoses with specific sequencing rules will be discussed and presented. The attendees will leave the course with enough information to begin successful and accurate coding

- Identify the relationship between assessment, coding and the Plan of Care.
- Apply the coding conventions to locate diagnoses information in assessments and the ICD-9 CM Manual
- Identify case mix diagnoses used in the Prospective Payment System.
- Apply specific sequencing rules to sequence common home care diagnoses.
- Explain the correct use of V codes for patient encounters.

NURSING CONTACT HOURS HAVE BEEN APPLIED FOR THROUGH THE TEXAS NURSES ASSOCIATION, AN ACCREDITED APPROVER OF CONTINUING NURSING EDUCATION BY THE AMERICAN NURSES CREDENTIALING CENTER'S COMMISSION ON ACCREDITATION.

LISA SELMAN-HOLMAN NATIONALLY RECOGNIZED EXPERT FACULTY

- ◆ 24 years in home care as a RN and Attorney practicing exclusively in home care
- ◆ Owner of Selman-Holman & Associates, LLC, a full-service home care consulting firm.
- ◆ Homecare Coding Specialist-Diagnosis (HCS-D) national advisory board for the Board of Medical Specialty Coding (BMSC)
- ◆ Participated on the Exam Review Task Force for the OASIS Certificate & Competency Board
